Re: Studio C Internship

Dear Ms.Chang,

I am interest in applying for two of the positions listed on the board. The two areas I'm interested in are: Coding and Research. I believe I possess the necessary skills and experience you are seeking and would make a valuable addition to your company.

As my resume indicates, I possess more than two years of progressive experience in the Web Design field. My professional history includes the position as leader of my group over First Grade Curriculum in preparation for "The Hour of Code".

My educational background has prepared me for the roles of Coder or Researcher. In particular, my study of Web Design has given me a solid background so that I can proficiently create web sites by using the standard coding languages. As for my ability of being a great problem solver; I feel that I could be an extensive researcher. I am eager to contribute my enthusiasm and up-to-date skills to the Studio C team.

I have attached my resume for your review and I look forward to speaking with you further regarding your available positions.

I appreciate your consideration.

Best regards,
Robert Casarotto
