- CSS
- Java Script
- MySQL
- PHP
- Robot C
- Bash-Scripting

Relevant Experience

Las Vegas Global Economic Alliance Logo — January 2016: The LVGEA Logo Project was the second logo client that we've had. We had to redesign their logo with the same colors, for their 60th anniversary.

Steve Jobs -Spring 2015: This project was huge collaboration of a team of students, of which I was the leader. We got Steve Jobs and each of us had two or three pieces of his face. Then each person had a color scheme that they had to follow for that square.

Three Point Perspective -Winter 2014: The Three Point Perspective Project was much like the one point except it was three times the perspective points. This was to take and design a picture in Sketch-Book Pro of three point perspective.

One Point Perspective -Winter 2014: One Point Perspective Project was to pick an image of only one point perspective. In which I had to incorporate the techniques that I learned while practicing one point.

Education

High School Diploma, Web Design

Southwest Career & Technical Academy — Las Vegas, NV, USA

Graphic Design Certificate.

Adobe Flash CS6 Certificate.

Adobe Photoshop Certificate.

Robot C VEX Programming Certificate.
